

DES DIVIA

Junction box for cable with and without connectors

CARATTERISTICHE

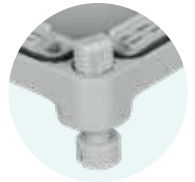

- Removable walls on four sides of the box
- IP66 (IP54 with grommets inserted)
- Fixing at the corner and at the bottom of the box
- Screws with fall protection included
- Cable entry also from below
- Configurable with the entire range of SPC and SPL cable grommets

The new DES DIVIA junction box is designed to simplify and expedite the routing of pipes, conduits, and cables with or without connectors in industrial environments. It utilizes removable walls and openable or piercable cable grommets, offering new wiring possibilities compared to traditional cable glands.

Materiale: PC, halogens and silicones free

Flammability: self-extinguishing acc. to UL94-V0

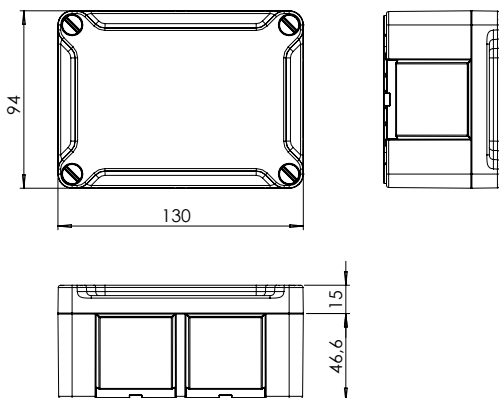

Temperature: -40°C... +130°C (static)

DES DIVIA

Junction box for cable with and without connectors

DES DIVIA allows to remove the walls **(1)** depending on the wiring requirements. In each opening, it is possible to insert one SPL **(2)** grommet for cables up to 31mm diameter, or 4 SPC **(3)** grommets for cables up to 15mm diameter, thanks to the included grommets separators **(4)**.
